ACCOMAC COURT-HOUSE, VA.

SATURDAY, MAY 28, 1887.

Entered at the Postoffice at Accomac, C. H., Va., as second-class matter.

The extra session of our Legislature was brought to a close last Tuesday, and the record of the representatives constituting that body cannot fail to have the approval of the people of Virginia. It is true they failed to accomplish the object for which they were convened, to wit, the settlement of the debt question, but that they used all honorable means to bring about the desired result and were untiring in their efforts to secure that end, no one can question who is at all familiar with the proceedings of our Legislature, except those who hope by their disapproval to promote their own selfish purposes.—

The commission appointed by our Legislature could not agree to the unjust demands made by the representatives of the British bondholders, so far did they exceed the ability of the State to pay, nor would the people of Virginia have approved had the members constituting it been so regardless of her interests. Our Legislature failed to accomplish the object hoped for through the commission, very wisely sought by legislation to protect our treasury from being plundered by the bondholders, the most important of which is the law making it a felony to induce a person to use coupons twice for taxes, making it a misdemeanor for any person to use them twice and giving the Governor power to remove treasurers for accepting coupons in payment of taxes, and what is known as the coupon crusher. The bondholders through their representatives having refused to adjust the debt upon honorable terms, of course, nothing is now left but to fight them to the bitter end, and if the coupon legislation already enacted, does not accomplish what we desire, then we must pass other laws when the Legislature again convenes and continue to do so, until the bondholders see the fruitless fight they are making, or it may be until laws are enacted which will stand the tests applied by the supreme power of the land.

The election in Accomac last Thursday passed off quietly. The success of the Democrats was looked upon as such a foregone conclusion in fact, that the Republicans wisely concluded to make no contest, except in Pungoteague district, the "black belt" of the county, and except there no special interest was manifested. In that district the vote was large of both political parties, but the Republicans had their black forces well under command, and having a majority won in the fight. It is gratifying to note in this connection, that in some of the other districts efforts made to make a breach in the ranks of the Democratic party, by candidates who styled themselves independent, were of no avail. Our people happily, we believe, realized that there is no middle ground between Democracy and Republicanism, and cast their votes accordingly.

Ex Gov. Wm. Smith, died at Warrenton, Va., last week, in the ninetieth year of his age, and was buried at Hollywood cemetery, Richmond. He has been so long a prominent figure in Virginia and his name has been so long a household word in every part of our State, as well on account of his distinguished services to her people, as for all the attributes that make up a noble manhood, that no eulogium is needed at our hands. He died truly full of honors, and will ever be affectionately remembered by the people of Virginia. The history of Virginia will truly have fewer brighter pages than that which records his deeds as a statesman and patriot.

The Governor has appointed George Perkins, of Charlottesville, a member of the Board of Visitors of the University of Virginia, to succeed Hon. A. H. H. Stuart, who resigned, and Capt. A. D. Payne, of Fauquier, a member of the Board of Visitors of the Blacksburg College, to succeed Gen. W. H. F. Lee, who also resigned.

The Legislature has passed a bill providing a mode by which tax payers may obtain an extension of time for the payment of taxes to the 1st day of May, 1888 without the imposition of the five per cent penalty.

# GEM

# PIANO

# AND

# ORGAN

# COMPANY.

MR. GEORGE W. HYNSON,  
a representative of the  
Gem Piano and Organ Company,  
of Washington, New Jersey, is now  
located at  
DRUMMONDTOWN,

for a few weeks. He has two car  
leads of organs here direct from  
their manufactory, and is now out  
on an advertising tour. Any one  
wishing to purchase an instrument,  
will do well by dealing with him,  
as you have no agent's commission  
to pay. Any one wishing to examine  
one of their instruments or desiring  
to take it on trial for a few  
days, can have it delivered at their  
homes, and if it does not prove en-  
tirely satisfactory, they are under  
no obligation to keep it. Parties  
having old pianos or organs, can  
get them exchanged for new ones,  
and they will be allowed what their  
instruments are worth. Now is the  
time to buy, as in dealing with Mr.  
Hynson, you deal direct with the  
manufactory. They give a written  
guarantee on their organs for  
six years, to keep them in thorough  
repair. They give parties who per-  
chase their time to pay for them,  
thereby coming within the reach of  
all. The names of a number of  
parties, who have purchased them  
in Maryland, and the upper part of  
Accomac are appended, and offered  
as reference.

POCOMOKE**  
  
EARLY ROSE. BEAUTY OF HEBRON.  
This old and reliable goods is again on the market, and is now being offered to the farmers of Accomac county through the following reliable business firms, who would not dare offer a fertilizer to their customers in which they themselves had not perfect confidence:  
Selby & Connest, Oak Hall;  
S. R. Nelson, Nelsonia;  
D. H. Johnson, Leemont;  
Geo. B. Fosque & Co., Onancock;  
Finney & Co., Finney's wharf;  
F. T. Boggs & Co., Boggs' wharf;  
Boggs & Waters, Nandua.  
After a severe test for many years by the side of all the leading fertilizers of the day, the POCOMOKE has proven itself unequalled by any goods on the market, except 10 per cent. Peruvian guano, and in no case is it excelled even by this standard goods. It is especially adapted to the growth of
